

Direct Sewer Connection Completion and Construction Inspection Form

The following form is a reminder of the special conditions outlined in your NBC Connection Permit. For a full list of special conditions, please see the original permit issued.

The conditions listed below must be adhered to by all permittees connecting directly to the NBC sewer system and discharging sewerage that will be treated at NBC's Wastewater Treatment Facilities:

- **Contact the NBC's Interceptor Maintenance Section** at 461-8848 (ext. 302) to schedule an on-site NBC sewer inspection of the connection at least 48 hours prior to start of this work. Failure to arrange an inspection of this sewer connection may result in the connection having to be uncovered at the permittee's expense to allow for an NBC connection inspection.
- **Submit a photo of connection:** A photograph of this sewer connection **MUST** be taken and forwarded to the NBC Permits Department along with this form. Please email this form and photos to Ms. Kimberly Kirwan at kkirwan@narrabay.com. Hard copies can also be faxed to 401-461-6540 or mailed to Narragansett Bay Commission, One Service Road, Providence, RI 02905.
